Experience

JAN 2020 – MAY 2021
Software Developer

Influensell Digilab Pvt ltd
Bengaluru

As a Key developer, I have worked on multiple projects, design and developed responsive websites in pixel scale analogous to the project requirement and client design description, and helped to debug critical issues in the production environment. Additionally, I have profound knowledge of UI/UX design, effective SEO, and Digital Marketing Strategies.

Majorly worked projects would be E-Commerce websites, developing CRM, Educational Institution websites, Virtual product launching, personal websites, and WordPress blogs.

APR 2018 – DEC 2019
Frontend Web Developer

Freelance

As a self-employed freelancer I worked with so many clients, In this duration I converted their PSD, XD, Figma files in to responsive Web designs by using HTML, CSS, JavaScript, BootStrap.

Education

JULY 2018
B.E in Telecommunication Engineering from Dayananda Sagar College of Engineering, Bengaluru
